We have been commissioned a Chou dynasty chinese armor for a very interesting project. The armor will be worn by Sun Tzu avatar, the well known author of "The Art of War" the military strategy bible. The Avatar will be the virtual guide of JOE GeoDome, and will be gifted with an artificial intelligence, will meet people and talk to them.

The armor has been ended today and we're very exiting to see the new avatar taking place in Second Life. We'll post a message once it will be available for purchasing in our shops.

For more information check <http://openvce.net/sun-tzu>
