We've just released a new Total War's family member, Total War Lite. Total War Lite is a platform designed for roleplaying, it allows use of Total War tools like clans or keep with any other combat system. Simply wear TWBS Lite attachment and HUD together with your combat system to use clan's tag and related management through Clan Shrines, or hit keep's doors.

TWBS Lite is free and can be found in our main store Tokuno Wind Main Store NAGASAK, [Nagasaki BAKUMATSU \(188, 173, 22\)](#)

TWBS Lite is not a combat system, while TWBS does.
